

# AMERICAN SHORTHAIR

The American Shorthair is a true breed of working cat. Originally known as the Domestic Shorthair, with more and more breeders taking an interest in the breed, it was renamed the American Shorthair in 1966. The general effect is that of a strongly built, well balanced, and symmetrical breed. Females may be less massive in all respects and are to be rewarded equally if overall balance is correct.

# **SMOKE**

## **GENERAL DESCRIPTION**

**Coat:** Deeply tipped with an established colour or pattern. In repose the cat looks like the established colour or pattern, In motion the white undercoat is clearly apparent. The face, ears, legs, and tail are the established colour or pattern with a narrow band of white at the base of the hairs next to the skin which may be seen only when fur is parted. Preference should be given to the cat whose coat lacks tabby markings.

**Nose leather:** Conform to the established colour standards.

**Paw Pads:** Conform to the established colour standards.

**Eye colour:** Gold.

**NOTE:** *During seasonal coat colour changes on both kittens and adults, the “reverse” colour of the coat is to be considered a NORMAL coat colour change. At the root it may appear that the primary smoke colour turns white a short distance up the hair shaft and then reverts back to the primary colour. The tipping during this coat colour phase may consume most of the hair shaft with only minimal white colour deep in the coat.*

## **BLACK SMOKE**

## TABBY PATTERNS

### CLASSIC TABBY PATTERN

Markings dense, clearly defined and broad. Legs barred with bracelets. Tail evenly ringed ending in a dark tip. Necklaces on neck and upper chest are to be unbroken. Frown marks on forehead form a letter "M". Unbroken line runs back from outer corner of eye. Swirls on cheeks. Vertical lines over back of head extend to shoulder markings which are in the shape of a butterfly with both upper and lower wings distinctly outlined and marked with dots inside the outline. Back markings consist of a vertical line down the spine from butterfly to tail with a vertical stripe paralleling it on each side. Large solid blotch on each side to be encircled by one or more unbroken rings. Side markings should be the same on both sides. Double vertical rows of buttons on chest and stomach. Hocks to be same colour as markings.

### MACKEREL TABBY PATTERN

Markings dense, clearly defined. Legs barred with bracelets. Tail evenly ringed ending with a dark tip. Necklaces on neck and upper chest, are to be unbroken. Frown marks on forehead form an "M". Unbroken line runs back from outer corner of eye. Lines run down the head to meet the shoulders. Spine lines run together to form a narrow saddle. Unbroken lines run around the body vertically. Buttons on chest and stomach. Hocks to be same colour as markings.

### SPOTTED TABBY PATTERN

Markings dense, clearly defined. Legs barred with bracelets. Tail spotted or broken rings ending with a dark tip. Necklaces on neck and upper chest, are to be broken. Frown marks on forehead form an "M". Line runs back from outer corner of eye. Broken lines run down the head to meet the shoulders. Spine lines consist of broken vertical lines preferably composed of spots. Spots on body may vary in size and shape but should not run together (i.e. a broken Mackerel pattern). Buttons on chest and stomach. Hocks to be same colour as markings.

### TICKED TABBY PATTERN

Body hair to be ticked with shades of the marking colour and ground colour. Legs barred with bracelets. Tail evenly ringed. Must have at least one necklace. Frown marks on forehead form an "M". Line runs back from outer corner of

eye. Spine line consists of darker dorsal shading. Body colour should be free of noticeable spots, stripes, or blotches. Lighter underside may show buttons on chest and stomach.

**Nose Leather:** Pink or the established colour.

**Paw Pads:** Pink, or the established colour.

## VAN

All established colours and patterns distributed as described for the Van pattern (face and body predominantly white with colour restricted to the head and tail. One or two small spots of colour on the body are allowed): All eye colours are allowed including Odd-eyed (one eye must be blue).

## GENERAL PREFACE

It is important to consult the individual breed standard for breed-specific disqualifications. The following list applies to all breeds unless otherwise indicated.

### WITHHOLD AWARDS (W/A) FOR:

- More or fewer than five toes on each front paw and four toes on each back paw. Pixie-Bobs are exempt from this disqualification.
- White lockets, buttons, or toes on any cat, except where part of the natural colour or pattern, or unless otherwise specified in the breed standard.
- Any entry that is declawed. Clear nail-tip covers are allowed.
- Any deformity or disfigurement — hereditary, congenital, or acquired. Household Pet entries are exempt from this disqualification.
- A cat showing evidence of intent to deceive (e.g., the presence of powder or chalk residue in the coat after normal grooming; the use of tints, colour rinses, or other artificial colouring concealment media; sanding or shaving).
- An entry, without provocation, attacks a judge or other person within the ring area, the entry shall be deemed vicious and disqualified (D.V. Disqualified, Vicious).
- Kinks, visible or invisible. Kink is defined as a rigid deflection of the tail line, whether visible or not. Small, invisible bumps or calcium deposits shall be considered a fault. Refer to individual breed standards for exceptions to this rule.
- Wrong eye colour (unless otherwise specified in a breed's standard).
- Crossed eyes in any breed. Household Pet entries are exempt from this disqualification.
- Maloccluded jaws.
- Monorchidism (the absence of one testicle) or cryptorchidism (the absence of both testicles) is grounds for withholding awards in the Championship (whole adult) or Miscellaneous (whole adult) classes.
- Any entry that scores less than 90 points.
- Excellence in one aspect of the standard shall not offset a deficiency in another. Because the standard specifically describes the various parts of the cat's appearance, all judges shall conduct their judging in accordance with these specifications.
- All entries should possess the appropriate weight, condition, and balance for their breed. Balance is the overall physical picture of the cat. The cat must 'fit together', and no single quality **should** be emphasized. Judges shall not penalize any fault by more than the cat would have earned if perfect in that detail.
- Judges shall penalize or disqualify N.F.A (No Further Award) for poor condition, indicating illness or poor care.
- If an entry has fleas, fungus, ear mites, etc., the judge shall N.F.A. the entry and notify the Show Manager.
- An obviously pregnant or lactating queen will be disqualified as N.F.A. (No Further Awards).
- Natural lighting should be used wherever possible. Allowances should be made for harsh artificial lighting, which may distort eye and coat colour.
- An entry presented in the judging ring showing noticeable effects of a sedative (e.g., third eyelids visible, overly glassy eyes, inability to stand or sit, lack of coordination or muscle control) shall not receive an award. The judge will record N.F.A (No Further Award) in their judge's book.
- Any cat too nervous or intractable to handle by the judge or the owner / agent must be disqualified (D.U.H. – Disqualified, Unable to Handle).
- A judge may disqualify any entry whose owner / agent draws specific attention to himself or his entry when benching the cat in the judging ring or at any time during judging. Judges shall enter D.L.E. (Disqualified, Lack of Etiquette) in their books.
- When an entry's colour or pattern has been misclassified, the entry shall be transferred to its correct class with the owner's permission.
- Cats recovering from recent surgery (or injury) where the incision (or wound) has not completely healed, stitches removed, etc.; must be disqualified (N.F.A. – No Further Awards).

### FACTORS TO CONSIDER:

- A weak, receding, or protruding chin is considered a serious fault. Deductions can be made for chin, profile, and balance.
- Allowance should be made for stud jowls in males. Usually, males are proportionally larger than females.
- Allowance is to be made for seasonal variations in coat.
- Allowance should be made for faint tabby markings in kittens and young cats, except when they are part of the normal colour pattern.
- Allowance should be made for undeveloped eye colour and undeveloped coat colour in kittens and young cats.
