

## COLOURPOINT SHORTHAIR

The ideal Colourpoint Shorthair should be a beautifully balanced cat with head; ears and neck carried on a long tubular body supported by fine legs and feet. Colourpoint Shorthairs are graceful and elegant in every aspect.

### I – BODY/CONFORMATION (23)

**(10) BODY** – Medium in size, dainty, long, lithe and svelte. Not exceedingly large or small. The sensation of solid weight without excessive bulk. Overall body structure is to be fine-boned. Body is firm and muscular.

**(7) LEGS & FEET** – Legs are long and proportionately slim. Hind legs are longer than front legs. Legs are proportioned to carry body length and weight gracefully. Small oval shape feet. Length and boning of legs (4 points). Shape and size of feet (3 points).

**(6) TAIL** – The tail should be narrow at the base, long, tapering and whippy, giving the effect of slenderness and length and in balance with the size of the cat.

### II – HEAD TYPE (31)

**(10) FULL FACE** – The head should be evenly proportioned, narrowing in perfectly straight lines to a fine muzzle. A wedge, as viewed from the top of the head, is created by straight lines from outer ear bases along the sides of the muzzle, without a break in the jaw line at the whiskers. The skull is flat; and the nose is a continuation of the forehead. (Forehead is that area between the top of the eye opening to the bottom of the inside of the ear-openings).

**(5) PROFILE** – In profile, a straight line without a rise or dip is seen from the centre of the forehead to the tip of the nose and from the tip of the nose to the bottom of the chin (Chin is not to be included in profile picture).

**(4) NECK** – The neck should be long and slender and carried to display length, but never telescoped, between the shoulder (Length (2 Points), Carriage (1 Point)).

**(6) EYE SHAPE** – The eye aperture should be almond shape, with an oriental slant towards the nose so that a projection of the line from the lower eye corner to the upper eye corner would extend to the centre of the ear base. The two eyes must be separated by at least the width of one eye.

**(6) EARS** – The ears should be large and alert.

### III – COAT TEXTURE/LENGTH (8)

Short, fine textured, glossy and close lying.

### IV – COLOUR (28)

**(12) BODY COLOUR** – The body colour should be even, with allowances for slightly darker shadings across the shoulders, back and top of the hips. Shading gradually blends into lighter colour on the chest and belly. Darker colour allowed for in older cats. Generally, kittens are lighter in colour. There must be a definite contrast between the colour of the body and the point colour.

**(11) POINT COLOUR** – Point colour of mask, ears, legs, feet and tail should be even in colour, clearly defined in shade, but merging gently into body colour on legs. Except in kittens, the mask and ears should be connected by tracings.

**(5) EYE COLOUR** – Eyes should be a clear, brilliant blue. The deeper, the better. Colour (4 points), Brilliance (1 point).

### V – CONDITION & BALANCE (10)

**(5) CONDITION** – Hard and muscular with no indication of fat or emaciation. An appearance of good health and vitality is essential.

**(5) BALANCE** – The overall appearance should be of a well-balanced cat. The cat should “fit together” if extreme in one part, all parts should be extreme, or it is out of balance. Balance is the overall picture of the cat physically and not emphasizing any one particular quality.

### OBJECTIONS

#### DEDUCT

* Cobby, short, thick or Flabby body, or a body pouch	3-5
* Short or thick neck.	1-3
* Short legs, heavy leg bones.	1-3
* Large or round feet.	1-3

## SOLID POINT COLOURS

### BLUE POINT

**Point Colour:** Deep grayish-blue. All points should be the same even shade.

**Coat:** Even bluish-white. Shadings if any are the shade of the points.

**Nose Leather:** Slate blue.

**Paw Pads:** Slate blue.

**Eye Colour:** Clear brilliant blue. Deep blue preferred.

**Objections:** Improper colour nose or paw leathers. Fawn or cream shadings.

### CHOCOLATE POINT

**Point Colour:** Warm milk chocolate. All points should be the same even shade.

**Coat:** Ivory without lilac or blue tones. Shadings if any are the shade of the points.

**Nose Leather:** Burnt rose or cinnamon pink.

**Paw Pads:** Burnt rose or cinnamon pink.

**Eye Colour:** Clear brilliant blue. Deep blue preferred.

**Objections:** Improper colour nose or paw leathers. Lilac or blue shading.

### CREAM POINT

**Point Colour:** Pale cream. All points should be the same even shade.

**Coat:** White without shading.

**Nose Leather:** Pink.

**Paw Pads:** Pink.

**Eye Colour:** Clear brilliant blue. Deep blue preferred.

**Objections:** Improper colour nose or paw leather. Shading on body.

### LILAC POINT

**Point Colour:** Light silvery blue with slight pink tone. All points should be the same even shade.

**Coat:** Even glacial white without tan, brown, or blue tones.

**Nose Leather:** Lavender pink.

**Paw Pads:** Lavender pink.

**Eye Colour:** Clear brilliant blue. Deep blue preferred.

**Objections:** Improper colour nose or paw leather. Tan, brown, or blue shadings.

### RED POINT

**Point Colour:** Deep orange-red. Kittens may have a lighter shade (hot cream to orange). All points should be the same even shade.

**Coat:** Creamy white. Shadings if any are the shade of the points.

**Nose Leather:** Flesh or coral pink.

**Paw Pads:** Flesh or coral pink.

**Eye Colour:** Clear brilliant blue. Deep blue preferred.

**Objections:** Improper colour nose or paw leathers. Pale point colour (overall impression of point colour must be hot)

**Withhold Awards:** Black or blue patches in nose or paw leathers. Any sign of tortoiseshell pattern.

### SEAL POINT

**Point Colour:** Deep seal -brown. All points should be the same even shade.

**Coat:** Even pale cream or ivory. Shadings if any are a warm fawn colour.

**Nose Leather:** Dark seal brown.

**Paw Pads:** Dark seal brown.

**Eye Colour:** Clear brilliant blue. Deep blue preferred.

**Objections:** Improper colour nose or paw leathers. Black or gray shadings.

## TORTIE POINT COLOURS

### BLUE-CREAM POINT

**Point Colour:** Well defined patches of blue and cream. It is desirable that blue and cream be evident on all point areas.

**Coat:** Even bluish white. Shadings if any are the shade of the points.

**Nose Leather:** Slate blue.

**Paw Pads:** Slate blue.

**Eye Colour:** Clear brilliant blue. Deep blue preferred.

**Objections:** Improper colour nose or paw leathers. Tabby markings. Lack of two colours on points. Brindled colours instead of patches of colour.

### CHOCOLATE TORTIE POINT

**Point Colour:** Milk chocolate with patches of cream. All points should be the same shade. It is desirable that chocolate and cream be evident on all point areas.

**Coat:** Even ivory. Shadings if any are the shade of the points.

**Nose Leather:** Cinnamon, solid chocolate.

**Paw Pads:** Cinnamon.

**Eye Colour:** Clear brilliant blue. Deep blue preferred.

**Objections:** Improper colour nose or paw leathers. Tabby markings. Lack of two colours on points. Brindled colours instead of patches of colour.

## LILAC-CREAM POINT

**Point Colour:** Warm silver blue with pink overtones patched with cream. All points should be the same shade. It is desirable that lilac and cream be evident on all patched with cream. All points should be the same shade. It is desirable that lilac and cream be evident on all point areas.

**Coat:** Glacial white. Shadings if any are the shade of the points.

**Nose Leather:** Lavender.

**Paw Pads:** Lavender.

**Eye Colour:** Clear brilliant blue. Deep blue preferred.

**Objections:** Improper colour nose or paw leathers. Tabby markings. Lack of two colours on points. Brindled colours instead of patches of colour.

## (SEAL) TORTIE POINT

**Point Colour:** Dark seal brown with well defined patches of red. All points should be the same shade. It is desirable that seal and cream be evident on all point areas.

**Coat:** Even pale creamy white to pale cream. Shadings if any are the shade of the points.

**Nose Leather:** Dark seal brown.

**Paw Pads:** Dark seal brown.

**Eye Colour:** Clear brilliant blue. Deep blue preferred.

**Objections:** Improper colour nose or paw leathers. Tabby markings. Lack of two colours on points. Brindled colours instead of patches of colour.

# LYNX POINT COLOURS

## BLUE LYNX POINT

**Point Colour:** Silvery blue with deep grayish-blue tabby markings on a light beige ground colour. All points should be the same shade.

**Coat:** Even bluish-white. Shadings if any are the shade of the points.

**Pattern:** The mask must be clearly marked with typical tabby markings including a classic “M” on the forehead. Eyes are outlined in dark pigment. Inner ear is light and a thumb print appears on the outer ear. Stripes on the legs and tail.

**Nose Leather:** Slate blue or brick red outlined in slate blue.

**Paw Pads:** Slate blue.

**Eye Colour:** Clear brilliant blue. Deep blue preferred.

**Objections:** Improper colour nose or paw leathers. Stripes or mottling on body, but consideration is to be given to shading in older cats.

## CHOCOLATE LYNX POINT

**Point Colour:** Warm milk chocolate tabby markings on a light bronze ground colour. All points should be the same shade.

**Coat:** Even ivory without lilac or blue tones. Shadings if any are the shade of the points.

**Pattern:** The mask must be clearly marked with typical tabby markings including a classic “M” on the forehead. Eyes are outlined in dark pigment. Inner ear is light and a thumb print appears on the outer ear. Stripes on the legs and tail.

**Nose Leather:** Cinnamon or pink edged with cinnamon.

**Paw Pads:** Cinnamon.

**Eye Colour:** Clear brilliant blue. Deep blue preferred.

**Objections:** Improper colour nose or paw leathers. Stripes or mottling on body, but consideration is to be given to shading in older cats. Blue or lilac tones.

## CREAM LYNX POINT

**Point Colour:** Cream tabby markings on a lighter cream ground colour. All points should be the same shade.

**Coat:** Cream white. Shadings if any are the shade of the points.

**Pattern:** The mask must be clearly marked with typical tabby markings including a classic “M” on the forehead. Eyes are outlined in dark pigment. Inner ear is light and a thumb print appears on the outer ear. Stripes on the legs and tail.

**Nose Leather:** Flesh or coral pink.

**Paw Pads:** Flesh or coral pink.

**Eye Colour:** Clear brilliant blue. Deep blue preferred.

**Objections:** Improper colour nose or paw leathers. Stripes or mottling on body, but consideration is to be given to shading in older cats.

## LILAC LYNX POINT

**Point Colour:** Frosty blue with pink overtones, tabby markings a darker shade of lilac blue on a pale beige ground colour. All points should be the same shade.

**Coat:** Glacial white. Shadings if any are the shade of the points.

**Pattern:** The mask must be clearly marked with typical tabby markings including a classic “M” on the forehead. Eyes are outlined in dark pigment. Inner ear is light and a thumb print appears on the outer ear. Stripes on the legs and tail.

**Nose Leather:** Lavender or pink edged with lavender.

**Paw Pads:** Lavender.

**Eye Colour:** Clear brilliant blue. Deep blue preferred.

**Objections:** Improper colour nose or paw leathers. Stripes or mottling on body, but consideration is to be given to shading in older cats.

## RED LYNX POINT

**Point Colour:** Deep red tabby markings on a light apricot ground colour. All points should be the same shade.

**Coat:** Cream white. Shadings if any are the shade of the points.

**Pattern:** The mask must be clearly marked with typical

tabby markings including a classic “M” on the forehead. Eyes are outlined in dark pigment. Inner ear is light and a thumb print appears on the outer ear. Stripes on the legs and tail.

**Nose Leather:** Flesh or coral pink

**Paw Pads:** Flesh or coral pink.

**Eye Colour:** Clear brilliant blue. Deep blue preferred.

**Objections:** Improper colour nose or paw leathers. Stripes or mottling on body, but consideration is to be given to shading in older cats.

## SEAL LYNX POINT

**Point Colour:** Seal brown tabby markings on lighter brown groundcolour. All points should be the same shade.

**Coat:** Pale cream to fawn. Shadings if any are the shade of the points.

**Pattern:** The mask must be clearly marked with typical tabby markings including a classic “M” on the forehead. Eyes are outlined in dark pigment. Inner ear is light and a thumb print appears on the outer ear. Stripes on the legs and tail.

**Nose Leather:** Seal brown or brick red outlined in Seal brown.

**Paw Pads:** Seal brown.

**Eye Colour:** Clear brilliant blue. Deep blue preferred.

**Objections:** Improper colour nose or paw leathers. Stripes or mottling on body, but consideration is to be given to shading in older cats.

# TORTIE LYNX POINT COLOURS

## BLUE-CREAM LYNX POINT

**Point Colour:** Blue tabby markings patched with cream on a light beige groundcolour.

**Nose Leather:** Seal brown, may be mottled with pink.

**Paw Pads:** Seal brown, may be mottled with pink.

**Eye Colour:** Clear brilliant blue. Deep blue preferred.

**Objections:** Improper colour nose or paw leathers. Stripes or mottling on body, but consideration is to be given to shading in older cats.

03 2002

# GENERAL PREFACE

The following shall apply to all breeds or as indicated:

## WITHHOLD AWARDS FOR:

1. More or fewer than five toes on each front paw and four toes on each back paw (Pixie-Bobs are exempt from this rule). Splayed toes are an objection.
2. White lockets, buttons or toes on any cat, except where part of the natural colour / pattern OR unless otherwise specified in the breed standard.
3. Any deformity or disfigurement — hereditary, congenital or acquired.
4. Entries which do not meet correct markings as stated. Entries must be properly and distinctly marked in accordance with the standard for all cats of the tabby variety.
5. A cat showing evidence of intent to deceive (i.e., the presence of powder, or chalk remaining in the coat after normal grooming, the use of tints, colour rinses or other artificial colouring concealment media, sanding or shaving, or knowledge of cosmetic surgery).
6. Any cat not amenable to handling by the judge, its owner or agent. All domestic breeds of cats covered in the standards are expected to be gentle and amenable to handling. Cats should be well-balanced physically and temperamentally.
7. Kinks, visible or invisible. Kink is defined as rigid deflection in the line of the tail, visible or otherwise. Small, invisible bumps shall be considered a fault.
8. Wrong eye colour (unless otherwise specified).
9. Crossed eyes in any breed.
10. Maloccluded jaws.
11. Monorchidism (absence of one testicle) or Cryptorchidism (absence of both testicles) are grounds for withholding awards.
12. Any entry that scores less than 90 points.
6. A 'blaze' — two colours on the face divided down the nose— is desirable (all other factors being equal) on the numerous tortoiseshell-like colours and patterns (i.e., tortoiseshell, lilac-cream, champagne-tortie, seal tortie point, etc.)
7. The greenish-yellow eye colour, generally referred to as 'hazel' (not brown) is allowed where stated.
8. Excellence in one aspect of the standard shall not offset deficiency in another. Inasmuch as the standard specifically describes the various parts of the cat's appearance, all judges shall conduct their work in accordance with these specifications.
9. All entries should possess the appropriate weight, condition and balance for its respective breed. Balance is the overall physical picture of the cat. The cat must 'fit together' and any one particular quality must not be emphasized. Judges shall not penalize any fault by a greater amount than the cat would have earned if perfect in that detail.
10. Judges shall penalize for bad condition indicating illness or poor care.
11. Natural lighting should be used wherever possible. Allowances are to be made for (harsh) artificial lighting which may distort eye and coat colour.

## KEEP IN MIND THE FOLLOWING:

1. weak, receding, or protruding chin is to be considered a serious fault. Deductions can be made for chin, profile and balance.
2. Allowance is to be made for stud jowls in males. Usually, males are proportionally larger than females.
3. Allowance is to be made for seasonal variations in coat.
4. Allowance is to be made for faint tabby markings, except where part of the normal colour pattern.
5. Allowance is to be made for undeveloped eye colour and undeveloped coat colour in kittens and young cats.
