

SCOTTISH

Scottish FOLD and Scottish STRAIGHT are judged as SEPARATE BREEDS. LONGHAIRS and SHORTHAIRS (Folds or Straights) are also judged as SEPARATE BREEDS.

The original Scottish was the result of a mutation in a colony of farm cats with folded ears found in Scotland. The breed has been further established through breeding with American and British Shorthairs.

I – BODY/CONFORMATION (30)

(20) BODY – The body is medium, rounded and even from the shoulder to the pelvic girdle. The cat stands firm with a well-padded body. There must be no hint of thickness or lack of mobility in the cat due to short, coarse legs. The toes must be neat and well rounded. The overall appearance is that of a well founded cat of medium boning.

(10) TAIL – The tail is medium to long but is in proportion with the body. The tail to be FLEXIBLE and tapering. A long, tapering tail is preferred.

II – HEAD TYPE (40)

(10) FULL FACE – The face is well rounded with a firm chin and jaw. The muzzle has well rounded whisker pads. The head blends into a short neck. Males have prominent cheeks which gives a jowly appearance.

(5) PROFILE – The nose is short with a gentle inward curve. A brief stop is permitted but a definite nose break is considered a fault. The profile is moderate in appearance.

(15) EARS (Folded) – Ears fold forward and downward. Small, tightly folded ears are preferred over loosely folded, larger ears. The ears are set in a cap-like fashion so as to expose a rounded cranium. Ear tips are rounded.

(15) EARS (Straight) – Medium to small, set low on the head. Ear tips are rounded.

(10) EYES – Eyes are wide open giving a sweet expression. They are large, well rounded and separated by a broad nose.

III – COAT TEXTURE/LENGTH (10)

SHORTHAIR – Short, dense and resilient.

LONGHAIR – Medium-long hair. Full coat on face and body desirable, but short hair permissible on face and legs. Britches, tail plume, toe tufts and ear furnishings should be clearly visible with a ruff being desirable.

IV – COLOUR (15)

(10) COAT COLOUR – The points for colour to be distributed as follows: 5 points for colour and 5 points for lustre and body

(5) EYE COLOUR – Preference is given for brilliance, depth and evenness of colour. Eye colour is to correspond with coat colour.

V – CONDITION & BALANCE (5)

The ideal Scottish is sturdy, medium in proportion with a well padded body. The appearance of an alert healthy cat is essential. Excellence in one aspect does not offset deficiency in another. The balanced cat will show a harmony of line throughout.

OBJECTIONS

	DEDUCT
* Delicate boning.	3-5
* Eyes too small.	3-5
* Eyes lacking roundness, or set too close together.	3-5
* Large ears.	3-5
* Ears set too high on the head.	3-5
* Definite nose break.	3-5
* Cottony coat in longhairs (except in kittens).	3-5

WITHHOLDS

- * Abnormally short tail.
- * Tail lacking in flexibility due to fused or abnormally thick vertebrae.
- * Short, coarse legs due to abnormal calcium deposits between the knees and heels.
- * Unusually large feet due to extra cartilage in toes.
- * All grounds for withholding awards listed in General Preface.

RECOGNIZED COLOURS

Refer to Colours & Patterns appendix for complete list.

BREED ORIGIN:	Mutation
REGISTRATION REQUIREMENT:	F1 allowed
SHOWING REQUIREMENTS:	F1 allowed
ALLOWED ANCESTRY:	Scottish Fold (LH & SH) Scottish Straight (LH & SH) American Shorthair British (SH & LH)
ALLOWED MATINGS:	Scottish Fold (LH & SH) bred to Scottish Straight (LH & SH), British (LH & SH), American Shorthair. Scottish Straight (LH & SH) bred to Scottish Straight (LH & SH), Scottish Fold (LH & SH), British (LH & SH), American Shorthair.

Note: Scottish kittens which develop 'temporarily' folded ears at an early age (3 to 4 weeks of age) but straighten as they mature must be registered as Scottish FOLDS since the kittens carry the gene responsible for folding ears.

Kittens from matings out of Scottish STRAIGHT bred to Scottish Straight, British SH/LH and American SH would be registered as Scottish Straight.

2021 05 01

EYE COLOUR:

The accepted eye colour for the majority of coat colours is gold or copper. Exceptions to the aforementioned eye colours are: Shaded or Chinchilla Silver, Shaded or Chinchilla Golden should have green or blue-green eye colour. Silver Tabby colours should have green or hazel eye colour. Silver Patched Tabbies should have gold, green or hazel eye colour. Pointed colours, including pointed with white, must have blue eye colour only. The occurrence of **blue-eyed or odd-eyed Bi-colours or Vans** is allowed.

SOLID COLOURS

BLACK

Coat: Clear lustrous jet black, sound from root to tip.

Nose Leather: Black.

Paw Pads: Black.

Objections: Smokey undercoat or rust tinge.

BLUE

Coat: Even shade of blue sound from root to tip. Lighter shades preferred.

Nose Leather: Blue.

Paw Pads: Blue.

Objections: Shading. Tabby markings. Rust tinge. Lighter undercoat. Drab lifeless colour.

CHOCOLATE

Coat: Clear chocolate brown sound from root to tip.

Nose Leather: Brown with pinkish tinge.

Paw Pads: Brown with pinkish tinge.

Objections: Tabby markings.

CINNAMON

Coat: Light reddish brown like a cinnamon stick (lighter than Chocolate).

Nose Leather: Pinkish tan.

Paw Pads: Pinkish tan.

Objections: Tabby markings.

CREAM

Coat: Clear buff cream sound from root to tip. Lighter shades preferred.

Nose Leather: Pink.

Paw Pads: Pink.

Objections: Tabby markings. Lighter colour around eyes, nose, lips, chin and upper throat.

FAWN

Coat: Light lavender with pale cocoa overtones, sound from root to tip.

Nose Leather: Light dusty rose.

Paw Pads: Light dusty rose.

Objections: Whiskers different than coat colour. Blue or lavender tones on nose or paw leathers.

LILAC

Coat: Clear warm lavender-pink from root to tip.

Nose Leather: lavender.

Paw Pads: Pink.

Objections: Tabby markings.

RED

Coat: Clear brilliant red sound from root to tip.

Nose Leather: Pink.

Paw Pads: Pink.

Objections: Shading. Barring. Ticking or tabby markings. Lighter colour around eyes, nose, lips, chin, and upper throat.

WHITE

Coat: Pure white sound from root to tip.

Nose Leather: Pink.

Paw Pads: Pink.

Eye Colour: Blue, copper, gold, green, aqua, odd eyed

Objections: Staining or off-white tinges.

Allowances: A dark cap (patch) of another colour on the head is not to be considered a fault in young cats (under one year of age). Deafness although undesirable is not penalized.

Refer to Breed Standard and General Preface for disqualifications and objections not listed here.

FLAXEN GOLDEN (AOV) (Shaded & Chinchilla)

The accepted norm of the established base colour/pattern combined with the lightening modifier known as Flaxen Golden.

GENERAL DESCRIPTION

Coat: The back and flanks appear in accordance with the basic colour/pattern. Along the throat, neck, chest, abdomen, and groin there is a strip of pale to very pale milky-creamy flaxen shade which blends into the contrasting golden part. The contrast with the base tone is more obvious when a greater degree of lightening is present. There may be a warmer tone to the abdomen.

The inner side of the legs ranges from a warm flaxen to pale milky-creamy flaxen shade. The outer side of the forelimbs below the elbow may be variable, but a symmetrical degree of lightening is desirable. At the maximum, only a narrow golden stripe above toes is visible on a pale creamy background. At the minimum, only the toe tips are lightened. The outer side of the hind legs below the hock has a golden tone or pronounced tipping depending on the base colour/pattern.

ALLOWANCES: The lightened flaxen shade on pale pigments (i.e., lilac, fawn) may appear almost white. There is significantly less pigment tipping on a flaxen golden chinchilla than there is on the traditional golden chinchilla. The flaxen golden tone tends to be much warmer and brighter than the traditional golden coat colour.

Nose: Colour of nose leather is pink. The nose leather outline is absent or incomplete. The muzzle is a milky-creamy flaxen shade. There is a pale triangular shape above the nose leather blending into the golden (flaxen) cranial coat colour.

Paw Pads: Conforms to the established colour standards, but may not be fully pigmented.

Eye Colour: Hazel (yellow-green), green to blue-green.

*In the absence of lightening on the chest and belly and minimal lightening of the toe tips, the cat is judged in accordance with the main base Golden colour **NOT Flaxen Golden**.*

Traditional eye colour is copper, gold, green, or hazel. Eye colour may differ from the norm, please refer to the individual breed standard for additional guidance.

SHADED

GENERAL DESCRIPTION

Coat: White undercoat (Goldens have a rich warm honey cream undercoat.). Coat on back, flanks, head, and tail sufficiently tipped with an established colour or pattern from dark on the ridge to white (or cream for Goldens) on the chin, chest, stomach, and under the tail. Shaded cats are darker (greater amount of pigment on tips/hair shaft) than Chinchillas (or Shells). Legs to be the same tone as face. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Conform to the established colour standards.

Paw Pads: Conform to the established colour standards.

Eye Colour: Silver Shaded and Golden Shaded have green or blue-green eyes.

BLUE SHADED

Coat: White undercoat. The coat on the back, flanks, head, and tail sufficiently tipped with blue, from dark on the ridge to white on the chin, stomach and chest, and under the tail. Legs to be the same tone as face. Shaded cats are darker than Chinchillas or Shells. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Rose.

Paw Pads: Blue or rose

Eye Colour: Green or blue-green.

BLUE SHADED GOLDEN

Coat: Ivory to pale honey undercoat. The coat on the back, flanks, head, and tail sufficiently tipped with blue to enhance golden colour. Ivory to pale honey colour on the chin, stomach and chest, and under the tail. Legs to be the same tone as face. Rims of eyes, lips, and nose outlined with blue. Shaded cats are darker than Chinchillas or Shells. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Rose outlined with blue.

Paw Pads: Blue or rose.

Eye Colour: Green, Blue-Green.

CAMEO SHADED

Coat: White undercoat. The coat on the back, flanks, head, and tail sufficiently tipped with red, from dark on the ridge to white on the chin, stomach and chest, and under the tail. Legs to be the same tone as face. Shaded cats are darker than Chinchillas or Shells. Preference should

be given to the cat whose coat lacks tabby markings.

Nose Leather: Rose pink.

Paw Pads: Rose pink.

CHOCOLATE SHADED

Coat: White undercoat. The coat on the back, flanks, head, and tail sufficiently tipped with chocolate. White on the chin, stomach and chest, and under the tail. Legs to be same tone as face. Shaded cats are darker than Chinchillas or Shells. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Brown.

Paw Pads: Cinnamon-pink.

CINNAMON SHADED

Coat: White undercoat. The coat on the back, flanks, head, and tail sufficiently tipped with cinnamon. White on the chin, stomach and chest, and under the tail. Legs to be the same tone as face. Shaded cats are darker than Chinchillas or Shells. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Tan to Pinkish Beige.

Paw Pads: Tan to Pinkish Beige.

CREAM CAMEO SHADED

Coat: White undercoat. The coat on the back, flanks, head, and tail sufficiently tipped with cream. White on the chin, stomach and chest, and under the tail. Legs to be the same tone as face. Shaded cats are darker than Chinchillas or Shells. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Pink.

Paw Pads: Pink.

GOLDEN SHADED

Coat: Warm pale honey to bright apricot undercoat. The coat on the back, flanks, head, and tail sufficiently tipped with black (darker than a Chinchilla). Dilute colour (much lighter than undercoat) on the chin, stomach and chest, and under the tail. Legs to be the same tone as face. Shaded cats are darker than Chinchillas or Shells. Rims of eyes, lips, and nose outlined with black. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Deep rose outlined with black.

Paw Pads: Black.

CHOCOLATE, CINNAMON, LILAC, or FAWN SHADED GOLDEN

Apply the colour description of the Golden Shaded substituting the tipped base colour with Chocolate, Cinnamon, Lilac or Fawn.

Refer to Breed Standard and General Preface for disqualifications and objections not listed here.

FAWN SHADED

Coat: White undercoat. The coat on the back, flanks, head, and tail sufficiently tipped with light lavender with pale cocoa overtones. White on the chin, stomach and chest, and under the tail. Legs to be the same tone as face. Shaded cats are darker than Chinchillas or Shells. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Pink.

Paw Pads: Pink.

Coat: White undercoat. The coat on the back, flanks, head, and tail sufficiently tipped with lilac. White on the chin, stomach and chest, and under the tail. Legs to be same tone as face. Shaded cats are darker than Chinchillas or Shells. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Lavender.

Paw Pads: Pink.

SILVER SHADED

Coat: White undercoat. The coat on the back, flanks, head, and tail sufficiently tipped with black, from dark on the ridge to white on the chin, stomach and chest, and under the tail. Legs to be the same tone as face. Rims of eyes, lips, and nose outlined with black. Shaded cats are darker than Chinchillas or Shells. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Brick red outlined with black.

Paw Pads: Black.

Eye Colour: Green or blue-green.

CHINCHILLA / SHELL

GENERAL DESCRIPTION

Coat: White undercoat (Goldens have a rich warm cream undercoat). Coat on back, flanks, head, and tail sufficiently tipped with an established colour or pattern to give the sparkling appearance necessary. Legs may be slightly shaded with tipping. Chin, stomach and chest are white (cream for Goldens). Chinchillas (or Shells) are lighter than Shaded (significantly less pigment on hair tips and shaft). Preference should be given to the cat whose coat lacks tabby markings.

Nose leather: Conform to the established colour standards.

Paw Pads: Conform to the established colour standards.

Eye Colour: Golden Chinchilla have green or blue-green eyes.

BLUE CHINCHILLA

Coat: White undercoat. The coat on the back, flanks, head, and tail sufficiently tipped with blue. Legs may be slightly shaded with blue tipping. Chin, stomach and chest are white. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Rose outlined with blue.

Paw Pads: Blue or rose.

BLUE GOLDEN CHINCHILLA

Coat: Pale ivory to creamed honey undercoat. The coat on the back, flanks, head, and tail sufficiently tipped with blue to enhance the golden colour. Legs may be shaded with blue tipping. Rims of eyes, lips, and nose outlined with blue. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Rose outlined with blue.

Paw Pads: Blue or rose.

Eye Colour: Green, Blue-Green.

CAMEO SHELL

Coat: White undercoat. The coat on the back, flanks, head, and tail sufficiently tipped with red. Legs may be slightly shaded with red tipping. Chin, stomach and chest are white. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Rose pink.

Paw Pads: Rose pink.

CHINCHILLA GOLDEN

Coat: Warm pale honey to light apricot undercoat. The coat on the back, flanks, head, and tail sufficiently tipped with black to enhance golden appearance. Legs and end of tail may be slightly shaded with black tipping. Rims of eyes, lips, and nose outlined with black. Chin, stomach and chest are dilute in colour (lighter than undercoat colour). Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Deep rose outlined with black..

Paw Pads: Black.

Eye Colour: Green or blue-green.

CHOCOLATE, CINNAMON, FAWN or LILAC CHINCHILLA GOLDEN

Apply the colour description of the Golden Chinchilla substituting the tipped base colour with Chocolate, Cinnamon, Lilac or Fawn.

CHOCOLATE CHINCHILLA

Coat: White undercoat. The coat on the back, flanks, head, and tail lightly tipped with chocolate. White on the chin, stomach and chest, and under the tail. Legs to be

same tone as face. Chinchilla cats are lighter than Shaded. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Brown.

Paw Pads: Cinnamon-pink.

CINNAMON CHINCHILLA

Coat: White undercoat. The coat on the back, flanks, head, and tail lightly tipped with cinnamon. White on the chin, stomach and chest, and under the tail. Legs to be the same tone as face. Shaded cats are darker than Chinchillas or Shells. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Tan to Pinkish Beige.

Paw Pads: Tan to Pinkish Beige.

CREAM SHELL CAMEO

Coat: White undercoat. The coat on the back, flanks, head, and tail sufficiently tipped with cream. Legs and face may be slightly shaded with cream tipping. Chin, stomach and chest are white. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Pink.

Paw Pads: Pink.

FAWN CHINCHILLA

Coat: White undercoat. The coat on the back, flanks, head, and tail lightly tipped with light lavender with pale cocoa overtones. White on the chin, stomach and chest, and under the tail. Legs to be the same tone as face. Shaded cats are darker than Chinchillas or Shells. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Pink.

Paw Pads: Pink.

LILAC CHINCHILLA

Coat: White undercoat. The coat on the back, flanks, head, and tail lightly tipped with lilac. White on the chin, stomach and chest, and under the tail. Legs to be same tone as face. Shell cats are lighter than Shaded. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Lavender.

Paw Pads: Pink.

SILVER CHINCHILLA

Coat: White undercoat. The coat on the back, flanks, head, and tail sufficiently tipped with black to give sparkling appearance. Legs may be slightly shaded with black tipping. Rims of eyes, lips, and nose outlined with black. Chin, stomach and chest are white. Preference should be given to the cat whose coat lacks tabby

markings.

Nose Leather: Brick red outlined with black..

Paw Pads: Black.

Eye Colour: Green or blue-green.

SMOKE

GENERAL DESCRIPTION

Coat: Deeply tipped with an established colour or pattern. In repose the cat looks like the established colour or pattern, In motion the white undercoat is clearly apparent. The face, ears, legs, and tail are the established colour or pattern with a narrow band of white at the base of the hairs next to the skin which may be seen only when fur is parted. Preference should be given to the cat whose coat lacks tabby markings.

Nose leather: Conform to the established colour standards.

Paw Pads: Conform to the established colour standards.

NOTE: *During seasonal coat colour changes on both kittens and adults, the “reverse” colour of the coat is to be considered a NORMAL coat colour change. At the root it may appear that the primary smoke colour turns white a short distance up the hair shaft and then reverts back to the primary colour. The tipping during this coat colour phase may consume most of the hair shaft with only minimal white colour deep in the coat.*

BLACK SMOKE

Coat: White undercoat, deeply tipped with black. Cat in repose appears black. In motion the white undercoat is apparent. Face, legs and tail, black with a narrow band of white at the base of hairs next to skin which may be seen only when fur is parted. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Black.

Paw Pads: Black.

BLUE SMOKE

Coat: White undercoat, deeply tipped with blue. Cat in repose appears blue. In motion the white undercoat is apparent. Face, legs and tail, black with a narrow band of white at the base of hairs next to skin which may be seen only when fur is parted. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Blue or rose.

Paw Pads: Blue.

CAMEO SMOKE

Coat: White undercoat, deeply tipped with red. Cat in repose appears red. In motion the white undercoat is apparent. Face, legs and tail, red with a narrow band of white at the base of hairs next to skin which may be seen only when fur is parted. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Rose.

Paw Pads: Rose.

CHOCOLATE SMOKE

Coat: White undercoat, deeply tipped with chocolate. Cat in repose appears chocolate. In motion the white undercoat is apparent. Face, legs and tail, chocolate with a narrow band of white at the base of hairs next to skin which may be seen only when fur is parted. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Brown.

Paw Pads: Cinnamon-Pink.

CINNAMON SMOKE

Coat: White undercoat, deeply tipped with cinnamon. Cat in repose appears cinnamon. White on the chin, stomach and chest, and under the tail. Legs to be the same tone as face. Shaded cats are darker than Chinchillas or Shells. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Tan to Pinkish Beige.

Paw Pads: Tan to Pinkish Beige.

CREAM CAMEO SMOKE

Coat: White undercoat, deeply tipped with cream. Cat in repose appears cream. In motion the white undercoat is apparent. Face, legs and tail, cream with a narrow band of white at the base of hairs next to skin which may be seen only when fur is parted. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Pink.

Paw Pads: Pink.

FAWN SMOKE

Coat: White undercoat, deeply tipped with lavender. Cat in repose appears lavender with pale cocoa overtones. White on the chin, stomach and chest, and under the tail. Legs to be the same tone as face. Shaded cats are darker than Chinchillas or Shells. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Pink.

Paw Pads: Pink.

LILAC SMOKE

Coat: White undercoat, deeply tipped with lilac. Cat in repose appears lilac. In motion the white undercoat is apparent. Face, legs and tail, lilac with a narrow band of white at the base of hairs next to skin which may be seen only when fur is parted. Preference should be given to the cat whose coat lacks tabby markings.

Nose Leather: Lavender.

Paw Pads: Pink.

Traditional eye colour is copper, gold, green, or hazel. Eye colour may differ from the norm, please refer to the individual breed standard for additional guidance.

SHADED, CHINCHILLA, SMOKE TORTOISESHELL COLOURS

BLUE CREAM SHADED

Coat: Ground colour white. The hair should be tipped blue with patches of cream tipping—shading gradually down the sides, face and tail to white on the chin, chest, stomach area, and under the tail. Shading on the face and legs is the same tone as the ridge, albeit lighter. Coat should be darker than a shell, but not so dark as to lose the sparkling effect. A “blaze” is desirable.

Nose Leather: Blue, may be mottled with pink.

Paw Pads: Blue, may be mottled with pink.

Objections: Tabby markings.

TABBY PATTERNS

CLASSIC TABBY PATTERN

Markings dense, clearly defined and broad. Legs barred with bracelets. Tail evenly ringed ending in a dark tip. Necklaces on neck and upper chest are to be unbroken. Frown marks on forehead form a letter "M". Unbroken line runs back from outer corner of eye. Swirls on cheeks. Vertical lines over back of head extend to shoulder markings which are in the shape of a butterfly with both upper and lower wings distinctly outlined and marked with dots inside the outline. Back markings consist of a vertical line down the spine from butterfly to tail with a vertical stripe paralleling it on each side. Large solid blotch on each side to be encircled by one or more unbroken rings. Side markings should be the same on both sides. Double vertical rows of buttons on chest and stomach. Hocks to be same colour as markings.

MACKEREL TABBY PATTERN

Markings dense, clearly defined. Legs barred with bracelets. Tail evenly ringed ending with a dark tip. Necklaces on neck and upper chest, are to be unbroken. Frown marks on forehead form an "M". Unbroken line runs back from outer corner of eye. Lines run down the head to meet the shoulders. Spine lines run together to form a narrow saddle. Unbroken lines run around the body vertically. Buttons on chest and stomach. Hocks to be same colour as markings.

SPOTTED TABBY PATTERN

Markings dense, clearly defined. Legs barred with bracelets. Tail spotted or broken rings ending with a dark tip. Necklaces on neck and upper chest, are to be broken. Frown marks on forehead form an "M". Line runs back from outer corner of eye. Broken lines run down the head to meet the shoulders. Spine lines consist of broken vertical lines preferably composed of spots. Spots on body may vary in size and shape but should not run together (i.e. a broken Mackerel pattern). Buttons on chest and stomach. Hocks to be same colour as markings.

TICKED TABBY PATTERN

Body hair to be ticked with shades of the marking colour and ground colour. Legs barred with bracelets. Tail evenly ringed. Must have at least one necklace. Frown marks on forehead form an "M". Line runs back from outer corner of eye. Spine line consists of darker dorsal shading. Body colour should be free of noticeable spots, stripes, or

blotches. Lighter underside may show buttons on chest and stomach.

PATCHED TABBY PATTERN

An established Classic, Mackerel, Spotted or Ticked Tabby with patches of red or cream.

Coat: Cinnamon (reddish brown) with clearly defined, patches of cream on face, body and extremities. On the undersides and extremities the colours may fade. A “blaze” which is comprised of the two colours, appears to divide the face down the nose, is desirable.

Nose Leather: Cinnamon, may be mottled with pink.

Paw Pads: Cinnamon, may be mottled with pink.

Objections: Solid colour face, legs and tail. Tabby or brindle markings.

FAWN TORTOISESHELL

Coat: Warm lavender with clearly defined, patches of cream on face, body and extremities. On the undersides and extremities the colours may fade. A “blaze” which is comprised of the two colours, appears to divide the face down the nose, is desirable.

Nose Leather: Lavender, may be mottled with pink.

Paw Pads: Lavender, may be mottled with pink.

Objections: Solid colour face, legs and tail. Tabby or brindle markings.

LILAC CREAM

Coat: Lilac with clearly defined, patches of cream on face, body and extremities. On the undersides and extremities the colours may fade. A “blaze” which is comprised of the two colours, appears to divide the face down the nose, is desirable.

Nose Leather: Lavender, may be mottled with pink.

Paw Pads: Lavender, may be mottled with pink.

Objections: Solid colour face, legs and tail. Tabby or brindle markings.

TORTOISESHELL

Coat: Black with clearly defined, patches of red on face, body and extremities. On the undersides and extremities the red may fade and appear as cream. A “blaze” which is comprised of the two colours, appears to divide the face down the nose, is desirable.

Nose Leather: Black or dark brown, may be mottled with pink.

Paw Pads: Black or dark brown, may be mottled with pink.

Objections: Solid colour face, legs and tail. Tabby or brindle markings.

Refer to Breed Standard and General Preface for disqualifications and objections not listed here.

Traditional eye colour is copper, gold, green, hazel, or odd-eyed. Eye colour may differ from the norm, please refer to the individual breed standard for additional guidance.

ANY COLOUR WITH WHITE

Coat conforms to the established colours and patterns with the addition of white. As a preferred minimum (unless otherwise stated in the breed standard), the cat should have white feet, legs, underside, chest and muzzle. An inverted 'V' on the face is desirable. Nose leather and paw pads conform to the established colour standards. Eye colour is gold to copper, blue, green, hazel, or odd-eyed (one eye must be blue). Shaded silver and white, chinchilla silver and white, shaded golden and white, chinchilla golden and white may also have green, blue-green, or odd-eyed (one eye must be blue).

CALICO / DILUTE CALICO

All established colours and patterns distributed as described for the Calico pattern (a tri-colour cat with un-brindled medium to large patches of DENSE colour and red, or DILUTE colour and cream on a white background). All eye colours are allowed including Odd-eyed (one eye must be blue).

PATTERNED CALICO

PATTERNED CALICO

Coat: A white cat with TABBY patterned patches of established colours with patches of RED (which may or may not be tabby). As a preferred minimum (unless otherwise stated in the breed standard) the cat should have white feet, legs, underside, chest and muzzle.

Nose Leather: Pink or the established colour.

Paw Pads: Pink, or the established colour.

DILUTE PATTERNED CALICO

Coat: A white cat with TABBY patterned patches of established colours with patches of CREAM (which may or may not be tabby). As a preferred minimum (unless otherwise stated in the breed standard), the cat should have white feet, legs, underside, chest and muzzle.

Nose Leather: Pink or the established colour.

Paw Pads: Pink, or the established colour.

VAN

All established colours and patterns distributed as described for the Van pattern (face and body predominantly white with colour restricted to the head and tail. One or two small spots of colour on the body are allowed): All eye colours are allowed including Odd-eyed (one eye must be blue).

Please refer to the individual breed standard for description of markings.

SOLID POINT COLOURS

BLUE POINT

Point Colour: Deep grayish-blue. All points should be the same even shade.

Coat: Even bluish-white. Shadings if any are the shade of the points.

Nose Leather: Slate gray.

Paw Pads: Slate gray.

Eye Colour: Clear brilliant blue. Deep blue preferred.

Objections: Improper colour nose or paw leathers. Fawn or cream shadings.

CHOCOLATE POINT

Point Colour: Warm milk chocolate. All points should be the same even shade.

Coat: Ivory without lilac or blue tones. Shadings if any are the shade of the points.

Nose Leather: Burnt rose or cinnamon pink.

Paw Pads: Cinnamon pink to tan-pink.

Eye Colour: Clear brilliant blue. Deep blue preferred.

Objections: Improper colour nose or paw leathers.

CINNAMON POINT

Point Colour: Light reddish brown distinctly warmer and lighter than chocolate. All points should be the same even shade.

Coat: Ivory. Shadings if any are the shade of the points.

Nose Leather: Tan to pinkish beige.

Paw Pads: Tan to pinkish beige.

Eye Colour: Clear brilliant blue. Deep blue preferred.

Objections: Improper colour nose or paw leathers.

CREAM POINT

Point Colour: Pale cream. All points should be the same even shade.

Coat: White without toning. Shading if any are the shade of the points.

Nose Leather: Pink.

Paw Pads: Pink.

Eye Colour: Clear brilliant blue. Deep blue preferred.

Objections: Improper colour nose or paw leather.

FAWN POINT

Point Colour: Light lavender with pale cocoa overtones. All points should be the same even shade.

Coat: Glacial white. Shadings if any are the shade of the points.

Nose Leather: Pink to light dusty-rose

Paw Pads: Pink to light dusty-rose.

Eye Colour: Clear brilliant blue. Deep blue preferred.

Objections: Improper colour nose or paw leathers.

LILAC POINT

Point Colour: Light silvery blue with definite warm tones. There may be a slight pink cast. All points should be the same even shade.

Coat: Even glacial white without tan, brown, or blue tones.

Nose Leather: Lavender pink.

Eye Colour: Clear brilliant blue. Deep blue preferred.

Objections: Improper colour nose or paw leather. Tan, brown, or blue shadings.

RED (FLAME) POINT

Point Colour: Deep orange-red. Kittens may have a lighter shade (hot cream to orange). All points should be the same even shade.

Coat: Warm even creamy white. Shadings if any are the shade of the points.

Nose Leather: Flesh or coral pink.

Paw Pads: Flesh or coral pink.

Eye Colour: Clear brilliant blue. Deep blue preferred.

Objections: Improper colour nose or paw leathers. Pale point colour (overall impression of point colour must be hot). Strong tabby markings.

Withhold Awards: Black or blue patches in nose or paw leathers. Any sign of tortoiseshell pattern.

SEAL POINT

Point Colour: Dense, deep seal -brown. All points should be the same even shade.

Coat: Even pale cream or ivory. Shadings if any are a warm fawn colour.

Nose Leather: Dark seal-brown to black.

Paw Pads: Dark seal-brown to black.

Eye Colour: Clear brilliant blue. Deep blue preferred.

Objections: Improper colour nose or paw leathers. Black or gray shadings.

Refer to Breed Standard and General Preface for disqualifications and objections not listed here.

TORTIE POINT COLOURS

BLUE CREAM POINT

Point Colour: Well defined patches of blue and cream. It is desirable that blue and cream be evident on all point areas.

Coat: Even bluish white. Shadings if any are the shade of the points.

Nose Leather: Slate gray, may be mottled with pink.

Paw Pads: Slate gray, may be mottled with pink.

CHOCOLATE TORTIE POINT

Point Colour: Milk chocolate with patches of cream. All points should be the same shade. It is desirable that chocolate and cream be evident on all point areas.

Coat: Even ivory. Shadings if any are the shade of the points.

Nose Leather: Cinnamon, may be mottled with pink.

Paw Pads: Cinnamon, may be mottled with pink.

Eye Colour: Clear brilliant blue. Deep blue preferred.

Objections: Improper colour nose or paw leathers. Tabby markings. Lack of two colours on points. Brindled colours instead of patches of colour.

CINNAMON TORTIE POINT

Point Colour: Light reddish-brown with patches of cream. All points should be the same shade. It is desirable that cinnamon and cream be evident on all point areas.

Coat: Even ivory. Shadings if any are the shade of the points.

Nose Leather: Tan to pinkish-beige, may be mottled with pink.

Paw Pads: Tan to pinkish-beige, may be mottled with pink.

Eye Colour: Clear brilliant blue. Deep blue preferred.

Objections: Improper colour nose or paw leathers. Tabby markings. Lack of two colours on points. Brindled colours instead of patches of colour.

FAWN TORTIE POINT

Point Colour: Light lavender with pale cocoa overtones patched with cream. All points should be the same shade. It is desirable that lavender and cream be evident on all point areas.

Coat: Glacial white. Shadings if any are the shade of the points.

Nose Leather: Dusty rose, may be mottled with pink.

Paw Pads: Dusty rose, may be mottled with pink.

Eye Colour: Clear brilliant blue. Deep blue preferred.

Objections: Improper colour nose or paw leathers. Tabby markings. Lack of two colours on points. Brindled colours instead of patches of colour.

LILAC CREAM POINT

Point Colour: Warm silver blue with pink overtones patched with cream. All points should be the same shade. It is desirable that lilac and cream be evident on all point areas.

Coat: Glacial white. Shadings if any are the shade of the points.

Nose Leather: Lavender, may be mottled with pink.

Paw Pads: Lavender, may be mottled with pink.

Eye Colour: Clear brilliant blue. Deep blue preferred.

Objections: Improper colour nose or paw leathers. Tabby markings. Lack of two colours on points. Brindled colours instead of patches of colour.

SEAL TORTIE POINT

Point Colour: Dark seal brown with well defined patches of red/cream. All points should be the same shade. It is desirable that seal and cream be evident on all point areas.

Coat: Even pale creamy white to pale cream. Shadings if any are the shade of the points.

Nose Leather: Seal brown, may be mottled with pink.

Paw Pads: Seal brown, may be mottled with pink.

Eye Colour: Clear brilliant blue. Deep blue preferred.

Objections: Improper colour nose or paw leathers. Tabby markings. Lack of two colours on points. Brindled colours instead of patches of colour.

Refer to Breed Standard and General Preface for disqualifications and objections not listed here.

LYNX POINT COLOURS

BLUE LYNX POINT

Point Colour: Silvery blue with deep grayish-blue tabby markings. All points should be the same shade.

Coat: Even bluish-white. Shadings if any are the shade of the points.

Pattern: The mask must be clearly marked with typical tabby markings including a classic “M” on the forehead. Eyes are outlined in dark pigment. Inner ear is light and a thumb print appears on the outer ear. Stripes on the legs and tail.

Nose Leather: Slate gray or brick red.

Coat: Glacial white. Shadings if any are the shade of the points.

Pattern: The mask must be clearly marked with typical tabby markings including a classic “M” on the forehead. Eyes are outlined in dark pigment. Inner ear is light and a thumb print appears on the outer ear. Stripes on the legs and tail.

Nose Leather: Lavender, may be mottled with pink.

Paw Pads: Lavender, may be mottled with pink.

Eye Colour: Clear brilliant blue. Deep blue preferred.

Objections: Improper colour nose or paw leathers. Stripes or mottling on body, but consideration is to be given to shading in older cats.

SEAL TORTIE LYNX POINT

Point Colour: Brown with darker seal brown tabby markings patched with red. All points should be the same shade. Ears have paler thumbprint in center.

Coat: Even pale cream to fawn. Shadings if any are the shade of the points.

Pattern: The mask must be clearly marked with typical tabby markings including a classic “M” on the forehead. Eyes are outlined in dark pigment. Inner ear is light and a thumb print appears on the outer ear. Stripes on the legs and tail.

Nose Leather: Seal brown, may be mottled with pink.

Paw Pads: Seal brown, may be mottled with pink.

Eye Colour: Clear brilliant blue. Deep blue preferred.

Objections: Improper colour nose or paw leathers. Stripes or mottling on body, but consideration is to be given to shading in older cats.

SMOKE POINT

White undercoat, deeply tipped with colour consistent with the corresponding base colour (solid point, tortie point, pointed bi-colour, pointed van). Points and mask appear solidly coloured with narrow band of white at base of hairs next to skin, which may be seen only when fur is parted. Nose leather and paw pad colours appropriate to the base colour.

SILVER LYNX POINT

White undercoat, deeply tipped with colour consistent with the corresponding base colour and tabby markings. (Silver lynx point, silver tortie lynx point, silver lynx point bi-colour, silver tortie lynx point bi-colour, silver lynx point van, silver tortie lynx point van). Points and mask appear as a normal lynx point or tortie lynx point with narrow band of white at base of hairs next to skin, which may be seen only when fur is parted. Nose leather and paw pad colours appropriate to the base colour.

GOLDEN LYNX POINT

Pale warm honey undercoat, deeply tipped with colour consistent with the corresponding base colour and tabby markings. (golden lynx point, golden tortie lynx point, golden lynx point bi-colour, golden tortie lynx point bi-colour, golden lynx point van, golden tortie lynx point van). Points and mask appear as a normal lynx point or tortie lynx point with narrow band of warm honey at base of hairs next to skin, which may be seen only when fur is parted. Nose leather and paw pad colours appropriate to the base colour.

POINTED WITH WHITE

Pointed with White should conform to the pointed pattern with the addition of white overlaid. The face and the body should exhibit substantial white (a minimum of one-third is preferred). There must be some white on the face with enough white to indicate an inverted ‘V’ being preferred. Small to medium spots of colour are allowed within the white, both on the face and on the body. Blue eye colour. Disqualify no white on face.

POINTED VAN

Pointed Van should conform to the pointed pattern with the face and the body exhibiting substantial white (a minimum of one-third is preferred). Point colour is confined to the head and tail with some allowance of point colour on the legs. There must be enough white on the face to differentiate the Van pattern from an inverted ‘V’ of a bi-colour. One or two small spots of colour are allowed within the white, both on the face and on the body. Blue eye colour. Disqualify no white on face.

GENERAL PREFACE

It is important to consult the individual breed standard for breed-specific disqualifications. The following list applies to all breeds unless otherwise indicated.

WITHHOLD AWARDS (W/A) FOR:

- More or fewer than five toes on each front paw and four toes on each back paw. Pixie-Bobs are exempt from this disqualification.
- White lockets, buttons, or toes on any cat, except where part of the natural colour or pattern, or unless otherwise specified in the breed standard.
- Any entry that is declawed. Clear nail-tip covers are allowed.
- Any deformity or disfigurement — hereditary, congenital, or acquired. Household Pet entries are exempt from this disqualification.
- A cat showing evidence of intent to deceive (e.g., the presence of powder or chalk residue in the coat after normal grooming; the use of tints, colour rinses, or other artificial colouring concealment media; sanding or shaving).
- An entry, without provocation, attacks a judge or other person within the ring area, the entry shall be deemed vicious and disqualified (D.V. Disqualified, Vicious).
- Kinks, visible or invisible. Kink is defined as a rigid deflection of the tail line, whether visible or not. Small, invisible bumps or calcium deposits shall be considered a fault. Refer to individual breed standards for exceptions to this rule.
- Wrong eye colour (unless otherwise specified in a breed's standard).
- Crossed eyes in any breed. Household Pet entries are exempt from this disqualification.
- Maloccluded jaws.
- Monorchidism (the absence of one testicle) or cryptorchidism (the absence of both testicles) is grounds for withholding awards in the Championship (whole adult) or Miscellaneous (whole adult) classes.
- Any entry that scores less than 90 points.
- Excellence in one aspect of the standard shall not offset a deficiency in another. Because the standard specifically describes the various parts of the cat's appearance, all judges shall conduct their judging in accordance with these specifications.
- All entries should possess the appropriate weight, condition, and balance for their breed. Balance is the overall physical picture of the cat. The cat must 'fit together', and no single quality **should** be emphasized. Judges shall not penalize any fault by more than the cat would have earned if perfect in that detail.
- Judges shall penalize or disqualify N.F.A (No Further Award) for poor condition, indicating illness or poor care.
- If an entry has fleas, fungus, ear mites, etc., the judge shall N.F.A. the entry and notify the Show Manager.
- An obviously pregnant or lactating queen will be disqualified as N.F.A. (No Further Awards).
- Natural lighting should be used wherever possible. Allowances should be made for harsh artificial lighting, which may distort eye and coat colour.
- An entry presented in the judging ring showing noticeable effects of a sedative (e.g., third eyelids visible, overly glassy eyes, inability to stand or sit, lack of coordination or muscle control) shall not receive an award. The judge will record N.F.A (No Further Award) in their judge's book.
- Any cat too nervous or intractable to handle by the judge or the owner / agent must be disqualified (D.U.H. – Disqualified, Unable to Handle).
- A judge may disqualify any entry whose owner / agent draws specific attention to himself or his entry when benching the cat in the judging ring or at any time during judging. Judges shall enter D.L.E. (Disqualified, Lack of Etiquette) in their books.
- When an entry's colour or pattern has been misclassified, the entry shall be transferred to its correct class with the owner's permission.
- Cats recovering from recent surgery (or injury) where the incision (or wound) has not completely healed, stitches removed, etc.; must be disqualified (N.F.A. – No Further Awards).

FACTORS TO CONSIDER:

- A weak, receding, or protruding chin is considered a serious fault. Deductions can be made for chin, profile, and balance.
- Allowance should be made for stud jowls in males. Usually, males are proportionally larger than females.
- Allowance is to be made for seasonal variations in coat.
- Allowance should be made for faint tabby markings in kittens and young cats, except when they are part of the normal colour pattern.
- Allowance should be made for undeveloped eye colour and undeveloped coat colour in kittens and young cats.
