Cats from a house or cattery where there has been any infectious or contagious illness within 28 days prior to the first day of the Show are ineligible for competition.
- b) No kitten or cat may be entered in the Kitten, Championship, Premiership **or Veterans** classes if it lacks any physical property - eyes, ears, legs, and excepting Manx and Cymric a tail.
- c) Any adult male cat with one or both testicles recessed may not receive any awards in the Championship classes.
- d) No obviously pregnant or lactating queen may be entered for competition or exhibition.
- e) Declawed cats will not be accepted in any class at CCA/AFC sanctioned shows.
- f) Soft Paws brand of end of nail tip covers for cats in clear format are allowed for all entries in Kitten, Championship, Premiership, Household Pet and **Veteran** classes.
- g) Entry clerks cannot accept entries with the abbreviation **NFS - Not for Show** in its registration code, this includes Exhibition Only requests

Section 2

- a) Any cat having proved to be vicious at a CCA sanctioned show (Disqualified Vicious) may not be entered for competition. The Registrar of CCA shall notify the owner in writing that the cat may not be entered at a CCA show again.
- b) Any cat from which an award has been withheld (W/A) by three (3) different judges may not be entered for competition in that class. The Registrar shall notify the owner in writing that the cat may not be entered at a CCA show again, with exception of the provisions covered by Article 5, Section 2 c).
- c) Withhold Awards (W/A) received by an entry in the Kitten, Championship **or Premiership** classes will not be carried forward to the next progressive class (i.e., a kitten may enter Championship or Premiership class, a **Championship** cat may enter Premiership **or Veterans** class).

Section 3

Cats born after May 1, 1976, carrying F1 in the CCA registration number may not be shown in the Championship classes with the exception of those breeds recognized for Championship status by CCA that allow F1 cats to be shown.

Section 4

i) All breeds entered in the Championship/Premiership classes must be CCA registered with the exception of cats which have purchased a temporary number from the CCA Office (see Article 15, Section 3). Kittens that are eligible for CCA registration without a permanent registration number can be entered in a CCA show using a Registration Pending number, CCA litter registration number or as unregistered listed kittens (See Article 15, Section 2).

ii) Temporary numbers allow cats/kittens who wish to compete at a CCA show and earn points and awards in any competitive category, i.e., qualifying Winners Rings, title points earned, and regional/national scoring will be credited to the cat/kitten. There are two types of temporary numbers:

A LISTED OPEN NUMBER (LON) is available to cats over 8 months of age. Cats entered with LONs are scored for titles but are not scored for national/regional awards. An LON is valid for a single show weekend only.

A REGISTRATION PENDING NUMBER (RPN) is available to kittens and cats. Cats entered with RPNs are scored for titles and national/regional awards. An RPN is valid for 30 days from the first day of the first show. This number should be used on all subsequent entries after the first show for the 30-day period or until the cat obtains a permanent registration number. At the end of this 30-day period, the cat may not be shown without a permanent registration number. In the case where other associations are at fault in the slow reception of documents required to register a cat with CCA-AFC, an extension of 30 days will be given to exhibitors holding an RPN to extend the use of the number. This will be approved on a case-by-case basis.

iii) Temporary numbers will be issued by the CCA Office upon receipt of the applicable fee per the current fee schedule, along with the name, birth date, description, parents, breeder, and owner of the cat, the name of the host club, and proof of registration or registration eligibility from a recognized association (including but not limited to the cat's registration certificate, a pedigree of at least 3 generations, and the parent's pedigrees with non-CCA litter certificate), with all cats in the pedigree being acceptable for that breed per current CCA registration rules. Should a cat be ineligible for temporary registration, the CCA Office will notify the owner with an explanation for this decision. Temporary number fees are non-refundable once the cat has been shown using the temporary number; if complete documentation for full CCA registration is received before the number is used, the fee can be applied to the individual registration fee.

iv) A cat shown on a temporary number must be registered within 60 days of the show to receive the points awarded. Wins will be voided if a cat competed in a competitive category it is not otherwise eligible for based on its permanent registration (i.e. offspring of a cat marked Not For Breeding). Cats shown with a temporary number must be permanently registered with CCA in order to receive title certificates or national/regional awards.

ARTICLE 6 - ENTRY PROCEDURES

Section 1

Any person entering a cat or kitten in a show held under the rules of the Canadian Cat Association, shall by such an act, be considered to have agreed to abide by and be subject to these rules, and to accept the decision of the officiating judge as final.

If the debt is not paid in full, the club shall notify the CCA Registrar and Secretary to place a hold on all wins of said cat or cats and they will not be credited for any wins at any CCA shows nor will any further registrations be accepted from them until all debts are paid in full.
- d) Exhibitors are permitted to withdraw their cats under judge(s) officiating at a show providing it is stated at the time of entry. The exhibitor's entries will be marked (XXX) in the individual Judge's book ONLY. This notation WILL NOT APPEAR in the Show Catalogue.

Colour listing available from CCA office

ARTICLE 17 – EXPERIMENTAL, NEW BREEDS, ESTABLISHED BREEDS, DIVISIONS OR COLOURS

Section 1

A breed is a group of domestic cats (subspecies *felis catus*) which the member of the Canadian Cat Association agrees to recognize in the Experimental, New Breed or Championship classes. Such a breed must have distinguishing features which set it apart from other breeds. This definition presumes the following:

- a) At the time of recognition CCA will assign a new breed into one of four groups; Established, Hybrid, Mutation or Natural.
- b) No breed of any classification may be merged in whole or in part with a Natural or Established Breed.
- c) For breeds which need to outcross for the good of the breeds health which do not have any other source of new bloodlines (i.e., importation) or outcrosses to other recognized breeds, the CCA Board of Directors will grant approval of an outcrossing plan when 60% of the breed section members agree with such a proposal. In addition to this the breed section requesting the outcrossing proposal must include the following:
 - i) A summary of the problem(s) with the breed which have caused the request to be made.
 - ii) Relevant statements from a qualified veterinary and/or genetic professionals establishing the outcrossing is the best course to follow to correct the problem cited in Article 17, Section c) i).
 - iii) A statement establishing that no other source of new bloodlines is available to the breed.
 - iv) The source and/or breed of the desired outcross.
 - v) A guarantee to the breeds that might be used as an outcross in such a program that any kittens produced by such an outcrossing will not at any time seek to be returned either to the registered classed of the breed and/or breeds being used for outcrossing.
 - vi) A description of the registration procedures to be used in the establishment of the outcross program and approval by the CCA Board of Directors of such procedures.
- d) In order to be considered for Experimental or New Breed Classes the cat must:
 - i) have three (3) distinctive characteristics which do not mimic* another recognized breed of cat.
 - ii) the beauty and health (physical and mental) of the cat is proven to be desirable and stable.

*Definition of mimic: a class of cats would be said to mimic either the parent breed or an already existing breed when the cat appears basically the same as the parent or existing breed without a definite difference between the two groups. Does not apply to breeds or colours which gained Championship status in CCA prior to May 1, 2013.

Section 2

- a) Application for Experimental or New Breeds must be submitted by a CCA/AFC member(s) and forwarded to the Standards Committee Chairman and must include a non-refundable applicable fee per current fee schedule.

- b) i) When application is made for consideration of an Experimental Breed there must be at least 6 members of CCA-AFC actively engaged in breeding the experimental breed. The application must contain a general description of the breed, proposed standard with point allotments, relevant material supporting the application (i.e., photographs, breeding records, etc.), and pedigrees.
- ii) When application is made for consideration of a New Breed, the application must contain a general description of the breed, proposed standard with point allotments, relevant material supporting the application (i.e., photographs, breeding records, etc.), pedigrees, and acceptance into other recognized cat registering association (but not yet recognized for Championship status). If the breed is accepted in more than one cat registering association, photocopies of a minimum of 2 standards must be presented with the applications.
- c) The Standards Committee Chairperson shall forward the application to the members of the Standards Committee, provided the above are met.
- d) The complete application along with the recommendations from the Standards Committee is forwarded to the Board of Directors. This package must be forwarded to the individual directors 60 days prior to the next meeting for the application to be considered at the meeting.
- e) If the application is accepted by the Board of Directors, the Experimental or New Breed will be placed in the appropriate class upon finalization of the breed's standard.
- f) The Standards Committee Chairperson shall format the Experimental or New Breed Standard to fit the lay-out style of the CCA/AFC standards and forward such standard to the member(s) making the application. Once mutually agreed upon by the members and the Standards Committee, the standard will be forwarded to the Board of Directors for their approval. Upon the Board of Director's approval a copy of the standard will be sent to the CCA office, CCA judges and apprentices. A 30 day waiting period shall be implemented before the Experimental or New Breed status comes into effect.
- g) i) Advancement from the Experimental class to New Breed class requires at least 20 cats of the breed be registered in CCA-AFC with pedigrees for 3 generations. Different examples of the breed (minimum of 5) which includes kittens and adults, must be shown in no less than four shows and in at least two regions. Five (5) different CCA/AFC All Breed Judges must handle the breed in their ring. If the Judge determines the entry meets the standards, ribbons as per Article 11, Section 2 e) will be awarded and recorded in the judges' books and NCR finals sheet. The judge shall indicate on the NCR finals sheet their opinion of the overall class by circling one of the levels of achievement listed. Any additional comments the judge feels pertinent to the quality of the entry may be written on the Office copy of the posting slip.
- ii) Advancement from the New Breed Class to Championship class requires different examples of the breed (minimum of 5) which include kittens and adults, the breed must be shown in no less than four shows within a 12 month period and in at least two regions. Five different CCA-AFC All Breed judges must handle the breed in their ring. If the judge determines the entry meets the standards, ribbons as per Article 11 Section 2 e) will be awarded and recorded in the judge's book and NCR finals sheet. The judge shall indicate on the NCR finals sheet their opinion of the overall class by circling one of the levels of achievement listed. Any additional comments the judge feels pertinent to the quality of the entry(s) may be written on the Office copy of the posting slip.
- h) All results and comments from these judges will be photocopied and sent to the Standards Committee Chairperson by the CCA office. The Chairperson will forward them to the members of the Standards Committee and they will review them. The committee will prepare a report with their recommendations and forward it to the Board of Directors, once Article 17, Section 1f) has been completed.

- i) Upon receipt of the Standards Committee's report and in conjunction with their regularly scheduled meeting, the Board of Directors will decide whether the Experimental breed will be advanced to New Breed status, or in the case of a New Breed be advanced to Championship status. If advancement is not granted, the breed will remain in its current class until advancement is granted. If there is no activity in the breed for four (4) consecutive years the breed status will be reviewed
- j) Exhibition Class at CCA shows is limited to those cats that have been granted Experimental Status (Appendix 1, Article V-5) by the Association, with the exception of cats entered and meeting the requirements in the Household Pet Class.
- k) Experimental or New Breeds granted Championship status in CCA are not allowed to modify the breed's standard for 2 years from the date of their acceptance into Championship class. Exception to this restriction would be housekeeping errors OR revisions to the breed's standard by the original North American cat registering association the CCA standard was adopted from.

Section 3

- a) A request for Championship status will be considered for an Established Breed where the breed already has Championship status in a major world cat registering association other than CCA-AFC, as long as the application is in order (see Article 17, Section 1).
 - i) The Standards Committee recommends the acceptance of an established breed from another association; OR
 - ii) A CCA member with a CCA cattery makes a proposal for an established breed from another association.
- b) Proposed standards and colour photographs must be submitted with the application. When an Established Breed is granted Championship status in CCA, the standard and colour descriptions adopted shall be those of the registering body in which the breed has already been so recognized. If the breed has championship status in more than one association, the Board of Directors shall determine the standard used by CCA. This will be done in consultation with the member(s) requesting the breed's recognition.

Established breeds granted Championship status in CCA are not allowed to modify the breed's standard for 2 years from the date of their acceptance into Championship class. Exceptions to this restriction would be housekeeping errors OR revisions to the breed's standard by the original North American cat registering association the CCA standard was adopted from.

- c) The Board of Directors shall direct the examination of all breeding records to determine if the new breed or division breeds true. In consultation with the Standards Committee or Breed Section(s) of CCA, Directors shall vote on the Championship status of the cats in question.
- d) i) Following acceptance by the Board of Directors of a New Breed or Established Breed into Championship status, or changes to Recognized Breeds' standards, division or colours, the additions/changes shall become effective May 1 before the breed can compete for titles and wins. 60 day waiting period will be implemented.
- ii) Following acceptance by the Board of Directors of changes to Recognized Breeds' standards, divisions or colours, the additions/changes shall become effective May 1.

- e) The Standards Chairman shall advise all clubs on a timely basis of such new breeds, divisions, or colours.
- f) Breeds not gaining approval by the Board of Directors shall be considered in the Household Pet class, under the rules pertaining to the Household Pet class, until such time as further data can be produced.

Section 4

- a) i) In order for any revisions, new divisions or colours to be considered, an application listing the changes or additions must be forwarded to the Standards Committee Chairperson by the Breed Secretary or Breed Administrator by October 1.
- ii) If the Standards Committee requires a decision to be made by a breed section the Chair will contact the Breed Secretary / Administrator to assist in the preparation of a ballot.

- c) i) Any comments or objections made by the Standards Committee shall be forwarded to the Breed Secretary / Administrator by November 30. The Breed Secretary / Administrator shall inform the members of their breed section of the Committee's input (Also see Appendix 1, Article V, Section 6).
- ii) If the Breed Secretary / Administrator receives further input from their breed section members they shall advise the Standards Committee Chair. The Standards Chair and the Breed Secretary/Administrator will work together preparing the final ballot. In the absence of a Breed Secretary/ Administrator, the Standards Committee members shall prepare the ballot.
- iii) The ballot must contain the current description which appears in the standard, rationale for the proposed change, a separate question for each change or addition, along with an area where the members are to vote either for or against the change or addition. In the case of a request for an additional colour or division a full description of each colour / division shall appear as part of the question.
- iv) The ballot must contain all mandatory information (i.e., deadline for return, member's signature, member's current CCA#). The Breed Secretary / Administrator shall send the approved ballot to all voting members of their breed section. Deadline for the ballot's return may not be less than 30 days from the date sent or after January 31.
- d) The Breed Secretary/Administrator will send the ballot either electronically or by postal service to their section's voting members. The Breed Secretary / Administrator may request a list of voting members in the breed section from the central office. In order for a ballot to be considered valid the voting member must complete, sign, and return their ballot to the **CCA-AFC office by the deadline**. Ballots returned electronically (email, fax or scanned copy of ballot) must show the signature of the voting member. To be considered 50% of the ballots from the voting members must be returned by the deadline and a 2/3 majority in the affirmative must be obtained in order for a change to pass.
- e) **The ballots will be returned to the CCA-AFC office** by the return deadline published on the ballot which cannot be later than January 31 (Also see Appendix 1, Article V, Section 6). Post-mark (envelope) or date stamp (email attachment/fax) will determine eligibility. The CCA-AFC office Manager shall notify the Standards Chair of the ballot results. The Standards Committee Chairperson shall forward the results to the Board of Directors for consideration at their next meeting or by March 1. The Directors must receive this report 30 days prior to their

next meeting or March 1. Any changes or additions to a standard must receive a majority approval of the Board of Directors to be official.

- f) The Standards Committee Chairperson will forward the decision of the Board of Directors to the Breed Secretary/Administrator who in turn shall inform their breed section members within 30 days or prior to April 30. Approved revisions and additions to a standard become effective as of May 1, with the exception of colours / patterns registered as **NFS (Not For Show)** which shall become effective once approved by the Board of Directors. (See Appendix 1, Article V, Section 6).
- g) Following acceptance of the new changes, divisions or colors, the Standards Committee Chairperson (or designate) must forward the new breed standard to all CCA judges and the CCA office by May 1.

CANADIAN CAT ASSOCIATION

SHOW RULES - APPENDIX

APPENDIX 1

ARTICLE I - FEE SCHEDULE

Fees for services available from Canadian Cat Association office.

ARTICLE II- CATTERY NAMES AND CAT NAMES

1. Cat names and cattery names may not be duplicated. Only alpha numeric characters (not including spaces) will be considered in determining uniqueness of a name. For example, the following would be considered to be the same name:
 - a) SomeCattery Cat Name
 - b) SomeCattery CatName
 - c) SomeCattery Cat-Name
2. The following guidelines are recommended in choosing a cattery name:
 - a) No hyphenated words
 - b) No more than two words
 - c) Breed name not included as part of cattery name.
3.
 - a) Cattery names may not exceed 15 spaces. The entire cat name (including prefix, suffix, "of", "de", "the" and similar words) may not exceed 35 spaces.
 - b) Cattery names will be registered and shown on all certificates in capital letters, no lower case.
 - c) If there are more than one owner of a cattery name, it is recommended that a designated Signing Official be named and recorded with the CCA office. The Signing Official would be able to only authorize litter registrations, individual registrations, and transfer of ownership for an individual cat. If a cattery does not have a Signing Official all requests from the cattery to CCA must contain the signatures of all the cattery owners.
4. Registered cat names cannot be changed except to add a cattery name suffix.
5.
 - a) No more than two cattery names are permitted within any cat's registered name. A cat's name may include only one cattery name prefix and one cattery name suffix. Only one cattery name suffix may be used if the cat is owned by more than one person.
 - b) Cats imported with a non-CCA cattery name as a prefix shall retain the prefix in its name unless the cattery name has been banned in CCA (Appendix 1, Article II, 11). A cat imported from a foreign association where the CCA breeder has a different cattery name registered with the foreign association than the name registered with CCA, the cattery prefix the cat is imported with is preserved, except in those cases where the imported cattery name belongs to the same individual(s) and the only difference is in punctuation (ex. a cattery name without punctuation marks such as apostrophes or dashes, which are permitted in CCA/AFC cattery names). These cats may have the CCA/AFC cattery name with its punctuation substituted for an imported cattery name that lacks punctuation.

- c) If an imported cat's name contains the suffix of a cattery name not registered with CCA the suffix will automatically be dropped. This rule includes the suffix of a cat imported by a breeder with a CCA cattery name which is different from their cattery name used in the foreign registry --- the CCA cattery name will not be substituted for the foreign association's suffix. If the owner/breeder wishes to add their CCA cattery name as a suffix they must pay the applicable fee.
 - d) A suffix cattery name may be deleted to add the cattery name of a subsequent owner if transferred or sold. The former CCA registration certificate must be surrendered to the registrar. (Applicable fee per current fee schedule).
 - e) It is recommended when registering a cat's name not to use words like 'of,' 'de,' 'du,' 'the,' or similar words in the name of a cat (i.e., Catteryname Taste of Honey) to avoid confusion with a possible cattery name being added as suffix.
6. When a cattery name is registered with CCA, cats bred by the owner or owners of the name shall carry the cattery name as a prefix.
 7. Cattery names may not be used unless registered with CCA except for a cat being imported with a non-CCA cattery name as a prefix in which case it will be retained as the prefix of the cat's name unless the cattery name has been banned in CCA (Appendix 1, Article II, 11). Cattery names cannot be used with a cat name already registered with CCA unless officially added. An unregistered cattery name cannot be added to a cat's registered name using hyphens.
 8.
 - a) Abbreviations or variations of registered cattery names are not permitted.
 - b) Adding an apostrophe s (i.e. 's) in/after a cattery name is not permitted.
 - c) Removing spaces from a cattery name is not permitted.
 - d) A cattery name may not duplicate or be an acronym for an affiliated or unaffiliated breed society, cat club, or cat association. (i.e., UBCF - United Burmese Cat Fanciers)
 9. New owner of cat may add his/her cattery name as a suffix (preceded by "of" or "de") when it can be done without violation of (3) or (5) of this Article.
 10. Changes in cattery names will be allowed only within 30 days of the original registration of the name (applicable fee per current fee schedule) provided that all cats are re-registered at owner's expense.
 11. That a cat with a banished cattery name cannot be registered in CCA with that cattery name as part of its official registered name.
 12. To register a cattery name an individual must be a current member in good standing.
 13.
 - a) The signatures of all current registered owners of a cattery are required in order to add an owner to an existing cattery record.
 - b) In order to remove an owner from the record of a registered cattery the written permission of the person being removed is required.
 - c) Registered cattery names may be transferred upon surrender of the certificate of cattery name registration and

with written permission from all owners of the cattery to transfer the ownership of the cattery to someone else. Payment of the required transfer fee must accompany the request.

d) In the case of a deceased person, CCA can provide a service (removal of the deceased's name from a cattery or transfer the ownership of a cattery or of individual cats) at the signed request of the person handling the estate upon receipt of proof of authority to sign and/or proof of death, which can include:

1. A copy of the death certificate.
2. A copy of the will detailing cat ownership and executor.

e) Where extenuating circumstances (i.e., separation, divorce, repossession, etc.) are involved, application with applicable documentation will be considered on an individual basis by CCA's Board of Directors. Current transfer fee will apply.

14. Only one cattery certificate shall be issued regardless of the number of owners. The names of all owners will appear on the cattery certificate but only the address of the first registered owner will appear.
15. A DUPLICATE GREEN and/or YELLOW SLIP if lost or destroyed may be requested from the Central Office by the breeder at no charge. A duplicate will be issued to the breeder only and will not be sent to any other person, even if the permission of the breeder is given.
16. A cat/kitten will be registered as a "Not for Breeding" (NFB) if the appropriate section of the yellow slip is not completed by the breeder(s) or Signing Official regardless of whether the breeder is also the owner. Signed permission from the breeder(s) or Signing Officer is required to remove a "Not for Breeding" restriction. The breeder's and a veterinary signed statement are required to change an altered cat (neutered or spayed) to unaltered.
17. The owner of a cat must be the given name(s) of an actual person(s). Company names, Mr. and Mrs., or "and family" will not be accepted. The designation "and/or" may not be used when there is a co-ownership.
18. Words that are considered vulgar or profane may not be used in a Cattery or Cat's Name.

ARTICLE III - GENERAL

1. The Canadian Cat Association reserves the right to cancel any erroneous registration, or any registration violating these rules, together with any registration that may have been made of any descendants of such cats.
2. When submitted for registration purposes; CCA application forms, certified pedigrees of other associations, export certificates and lease agreements will not be returned. Keep copy or send a photocopy.
3. When incorrect litter or individual registration certificates are issued, due to errors on the application form, the certificate must be returned with corrections indicated and a corrected certificate(s) will be issued at the owner's expense. If a CCA error, there will be no charge for the correction.
4. The breeder of a cat is the registered owner of the dam at the time of mating; or the lessee of the dam, providing the lease has been recorded with C.C.A.
 - a) LEASE RECORDED: A lease must be recorded with CCA if the owner(s) of record leases a sire or dam to an individual(s) with the intent the registered owner's name(s) be excluded from all transactions during the specified lease period.

The lease recording fee and a copy of the lease agreement to include the name and registration number of the cat, name of lessee(s), lease period (from-to) and signatures of ALL registered owner(s) or signing official must be sent to CCA prior to or in conjunction with the processing of the first litter registration.

b) LEASES UNRECORDED: Complete the lease section on the litter application form only, it is not necessary to file a formal lease for this purpose. A letter from the registered owner(s) or signing official of the cat authorizing the unrecorded lease is needed (no additional fee is required). The Lessee's name plus all current registered owners of the dam will be included on the litter registration as breeders of the litter. The litter registration form will need to be signed by the lessee of the cat.

5. Cats born after May 1, 1974 to CCA registered cats must be litter registered.
6. When the dam of a litter is co-owned by two or more breeders each having a registered cattery name, only **one cattery name prefix** may be used in naming ALL kittens in any one litter.
7. a) An application for litter registration can only be made by the breeder(s) or designated Signing Official of the litter.
b) Litter applications must be signed by the owner of the dam. If the dam is co-owned, the signature of all owners OR the designated Signing Official (which is recorded with CCA) for the cat/cattery is required.

If the applicant for the litter registration is not the owner of the sire of the litter, the owner of the sire will be contacted by the CCA registrar to verify the owner's consent before processing litter registration.

c) When the sire of a litter is on lease, a copy of the lease agreement signed by all registered owners of the cat or the designated Signing Official must be sent to CCA prior to or in conjunction with the processing of the litter application.

d) Registration for a kitten of an accepted characteristic (such as color, pattern, coat length) for that breed, but occurring from parents whose genetic makeup would not be expected to produce that characteristic, will be issued a restricted Not For Breeding (NFB) registration.

e) CCA allows for the registration of litters with more than one sire. Parentage must be determined using an accepted DNA testing facility prior to registration. The procedure for the registration of a multiple-sired litter or for any litter with questionable parentage is as follows:

Once the DNA test results have been received and parentage has been determined, submit the DNA test results for the sires, dam and all kittens to CCA along with appropriate litter registration applications. If the litter has two or more sires, complete two or more different litter applications, listing the different sires on each application. Regular separate litter registration fees apply.

f) CCA has made every effort to protect the accuracy of bloodlines through its system of registration, but cats registered by certified pedigree from other associations cannot be guaranteed. The possibility does exist that a hidden gene not allowed within the breed may appear in a litter (i.e., colour, pattern, or structural. In such cases, the affected kitten will be designated as **NFB (Not For Breeding)** which restricts the trait from reproducing and it cannot be shown as an AOV within the breed -- the cat can be **recorded and shown in the Household Pet class** without reference to the breed. The remainder of the litter that does conform to the accepted standard is registerable.

g) When the ancestry of a hybrid litter might permit registration of the kittens in more than one breed classification, the breeder must list the breed under which each kitten is to be registered (i.e., Scottish Straight, Scottish Fold). Kittens which phenotypically look like another recognized breed cannot be registered as that breed (i.e., Scottish Straight registered as a British or an American Shorthair; Balinese Shorthair registered as a Siamese or Colourpoint).

h) 1. CCA reserves the right to question the breeder of any litter where a parent cat is under the age of 7 months at the time the litter is born.

2. CCA reserves the right to question the breeder of any litter where a parent cat would be considered geriatric (over 10 years of age) at the time the litter was sired or born.

3. Although there is no limit on the number of litters allowable per year from any one female, each litter must be at least 65 days apart.

i) Only one individual registration certificate shall be issued for any cat regardless of the number of owners. Only the address of the first registered owner of a co-owned cat will appear on the registration certificate.

8. Applications for registration must be made on an official CCA form.
9. No registrations will be issued unless payment has been received in full for the services and the applicant has no outstanding debts or restrictions with CCA.
10. Certified pedigrees will only be issued when three or more generations of ancestry are registered with CCA and only with the permission of the owner.
11. The identification number of a cat that has been micro-chipped appears on the CCA registration certificate.
12. Advertisements in CCA Breeders' Directories (print or electronic) shall be limited to breeds that are accepted for Championship, New Breed, or Experimental status with CCA.
13. All owner(s) OR the designated Signing Official signature for the cattery / cat are required to process the transfer or sale of a cat.
14. There is no time limit requirement for the submission of cat registration applications, litter applications, or transfer requests.

ARTICLE IV - INDIVIDUAL REGISTRATION

1. a) Cats and kittens that are registered in another association may be registered with CCA if a certified minimum three-generation pedigree from an association recognized by the CCA is provided upon application. If the pedigree is in a language other than English or French, including Colour Codes, then a translation into English or French, including Colour Codes, must be provided.

b) Individual Breed Sections shall determine the number of generations required for pedigrees from other associations with the approval of the Board of Directors. A minimum of 3 generations is mandatory. Breeds requiring more than the minimum 3 generations pedigree shall have the number of generations required appear in their Breed Standard.
2. If all kittens of a litter are individually registered at the same time as the request for the litter's registration is made, the breeder will benefit of a substantial rebate on the kitten's registration (see current price list). It is not necessary for the breeder to supply a name for each kitten or the name of the new owner. Only the kitten's sex and colour is needed. Kittens registered using this method are issued a yellow registration slip instead of the usual green one.
3. a) Premiers that are registered in another recognized association with like breed standards to CCA may be

registered NOT FOR BREEDING with CCA with proof of registration. The registration certificate will clearly be marked NOT FOR BREEDING.

b) These Premiers will be eligible to be shown in only the Premiership class at CCA sanctioned shows.

c) Each Breed Section would have the ability to decide which associations' breed standards are equivalent to CCA's.

ARTICLE V - BREED CLASSIFICATION AND ELIGIBILITY FOR REGISTRATION

[In the case of Siamese; only Seal point, Blue point, Lilac Point, and Chocolate point allowed in the pedigree (seven generations pedigrees are necessary)]. Abyssinian, American Shorthair, Persian, Russian Blue, Siamese, Maine Coon, Norwegian Forest Cat, Turkish Angora, Egyptian Mau, Singapura, Japanese Bobtail, and York Chocolate.

ESTABLISHED BREED

Such cats are the result of mating two or more NATURAL BREEDS, and may be continued only by breeding the ESTABLISHED BREEDS to each other without further out crosses to the original NATURAL BREEDS. British Shorthair, Burmese, Chartreux, Korat.

MUTATIONS

These are the natural offspring of NATURAL BREEDS, having distinct or different characteristics that may be perpetuated by breeding specimens of the NATURAL BREED and/or the MUTATION. American Curl (Longhair/Shorthair), Balinese (Longhair/Shorthair), Cornish Rex, Devon Rex, Manx, Somali, Cymric, American Wirehair, Scottish Fold (Longhair/Shorthair), Sphynx, Selkirk Rex (Longhair/Shorthair).

HYBRIDS

HYBRIDS are a result of mating two or more NATURAL, ESTABLISHED, MUTATION, OR HYBRID BREEDS and are allowed to mate back to the original breeds in order to maintain desirable characteristics, colours, etc. Hybrids are not allowed to mate with the allowed ancestry of the original breeds (i.e., Foldex was created from mating the Scottish to the Exotic. The Scottish breed is allowed to have British and American Shorthair in its ancestry and the Exotic is allowed to have Persian and Himalayan in its ancestry. However, the Foldex is not allowed to directly mate to British, American Shorthair, Persian or Himalayan, even though those breeds can be found in the allowed ancestry of the Foldex as ancestors of the Scottish or Exotic). Foundation if applicable will be shown as F1, F2, F3.

the health and well-being of the cat.

- i. A cheque is sent to the amount of the applicable fee per current fee schedule;
- ii. A preliminary standard is submitted;
 - iii. Goals and objectives;
 - iv. Names, cattery names and CCA/AC members working with the breed;

Acceptance of a cat with a particular genetically possible colour/pattern for registration purposes does not imply recognition or eligibility for championship competition by the breed in question.
- b) The breed section voting members shall vote on whether the new colour/pattern shall be **Recognized** in the breed; or registered as an **AOV (Any Other Variety)** which can be shown as a separate class within the breed in order to gain recognition and with breeding rights; or **NFS (Not For Show)** which allows the new colour/pattern to be used as a breeding cat but it cannot be shown in any pedigreed class or benched in a show hall; or **NFB (Not For Breeding)** which restricts the new colour/pattern from reproducing and it cannot be shown as an AOV within the breed -- the cat can be **recorded and shown in the Household Pet class** without reference to the

breed.

- c) If the breed section Secretary/members do not respond to the Standard Committee's request for a decision within 30 days, the new colour/pattern will be registered as **AOV (if AOV is allowed in that breed) with breeding rights**.
